

1. UML Use Case Diagram

AI Career Guidance and Skill Recommendation System

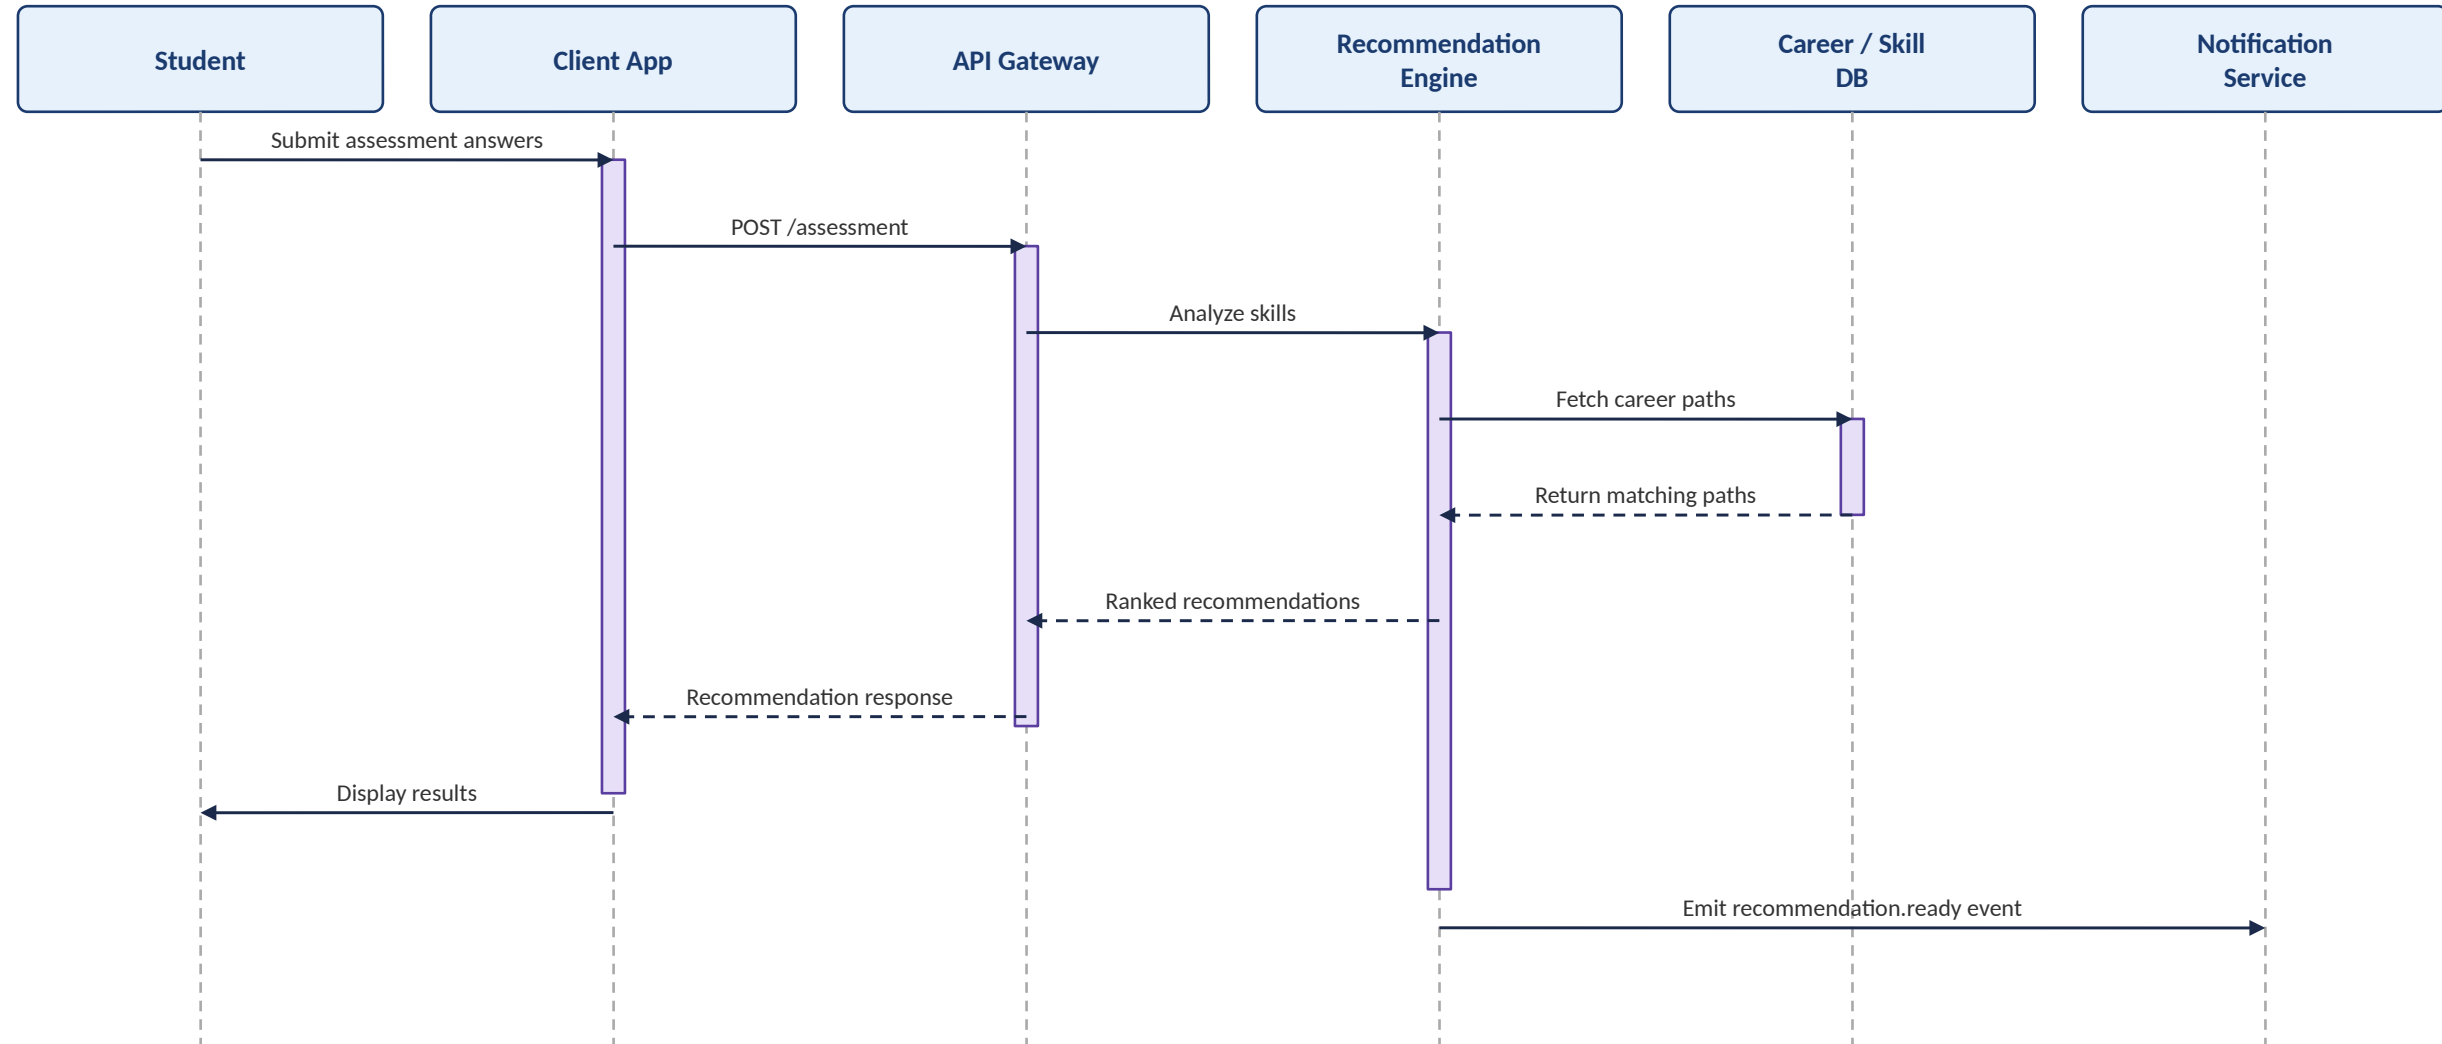

2. UML Class Diagram

Core domain model

3. UML Sequence Diagram

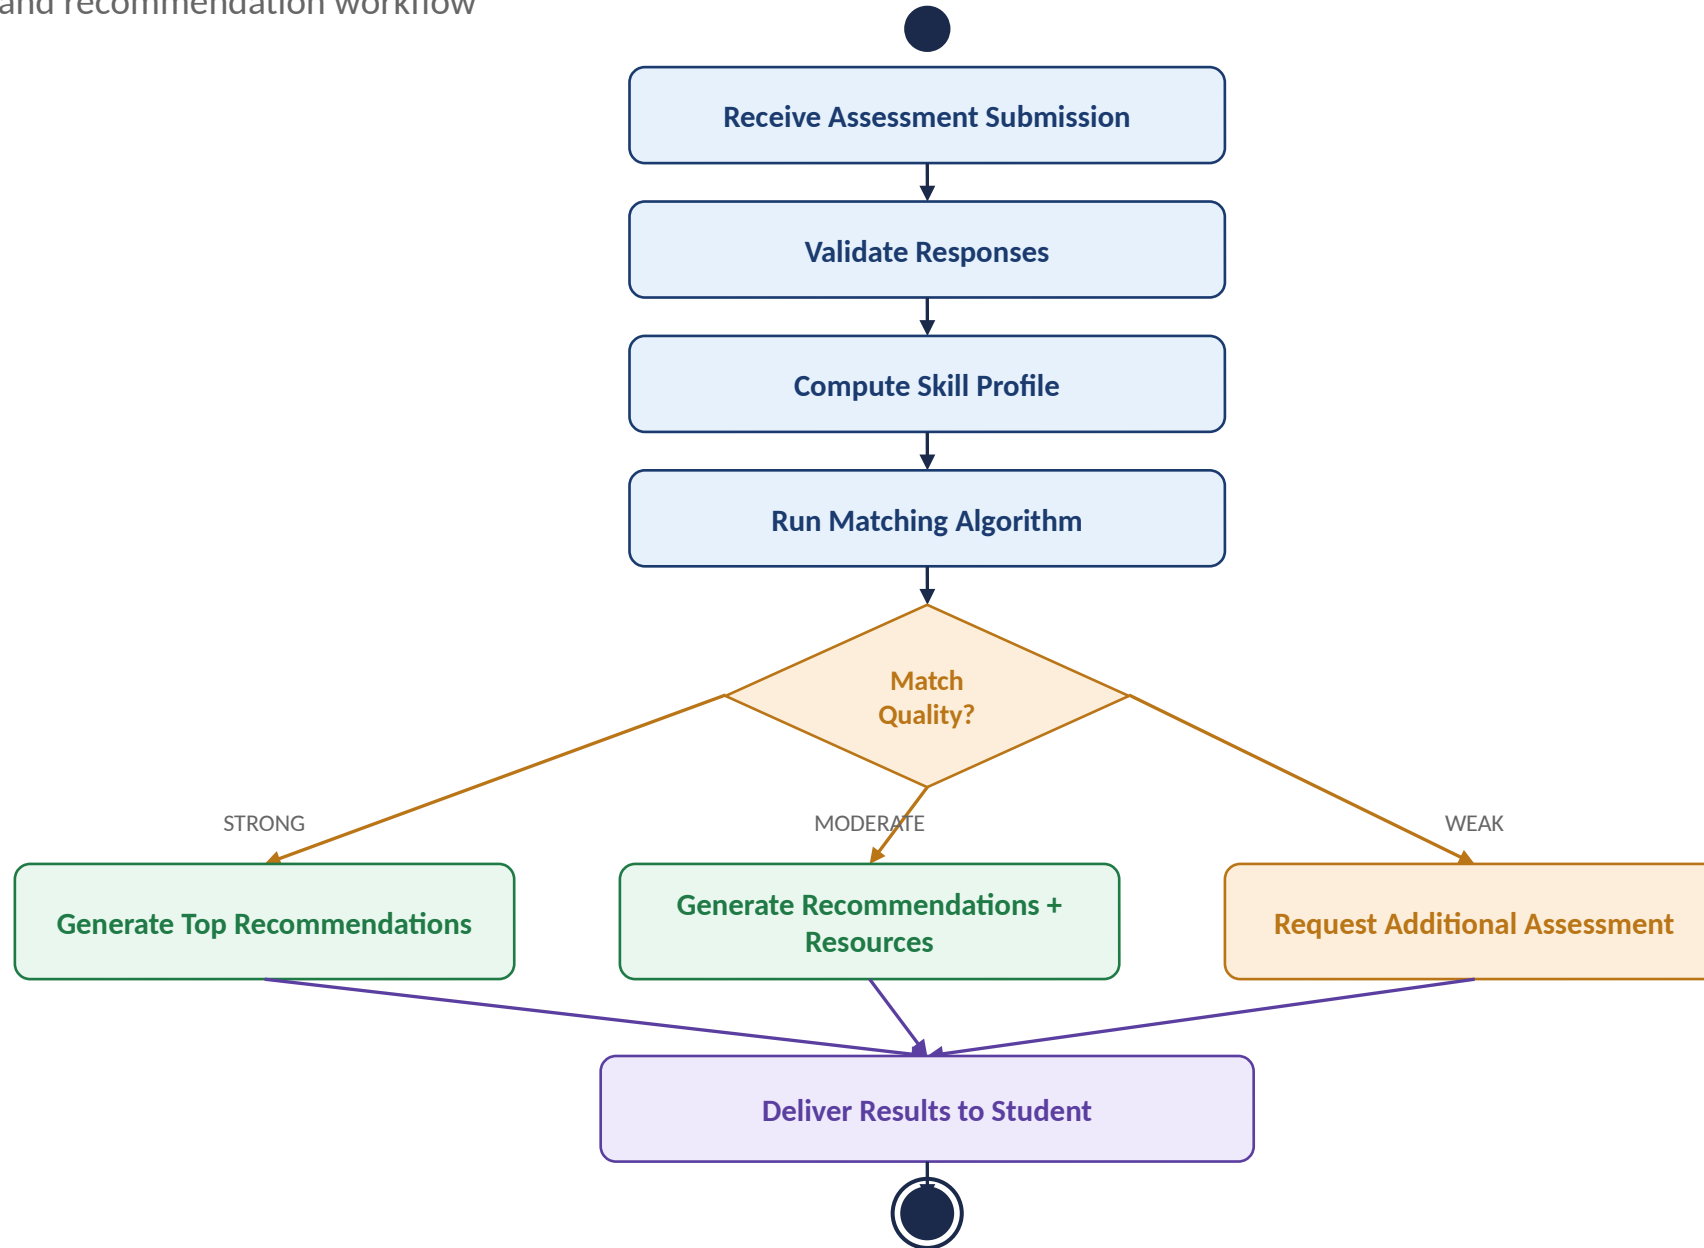

Skill assessment to recommendation flow

Alternate flow: incomplete assessment data returns a validation error requesting additional responses.

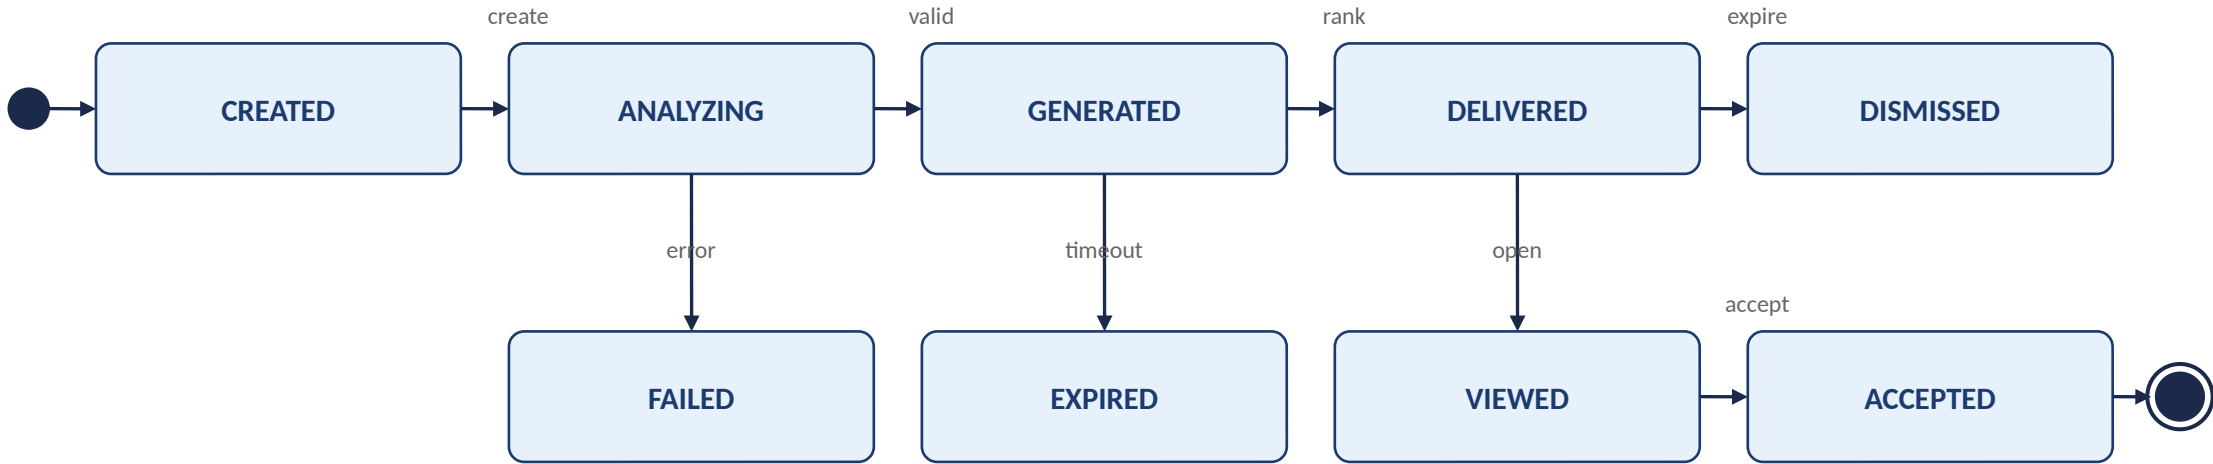

4. UML Activity Diagram

Skill assessment and recommendation workflow

5. UML State Machine Diagram

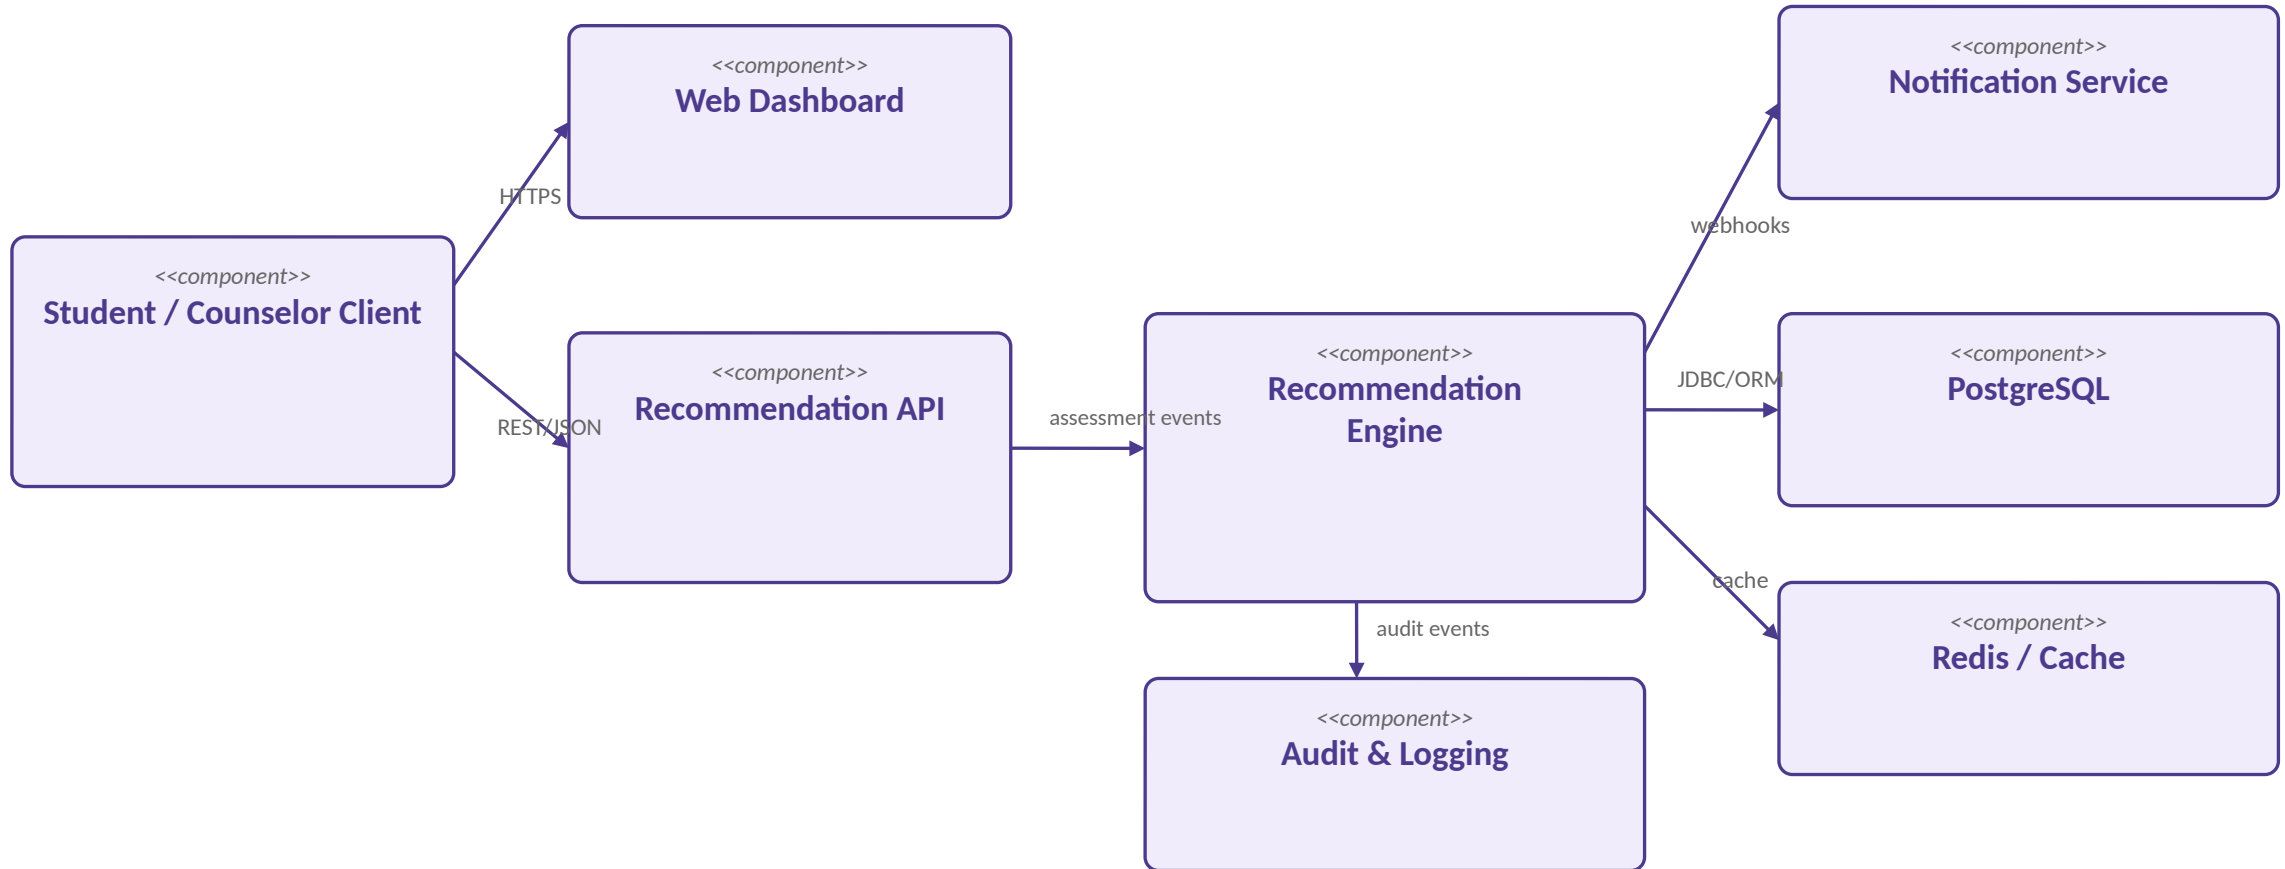

Recommendation lifecycle

Terminal outcomes: DISMISSED, FAILED, and EXPIRED end the lifecycle without enrollment.

6. UML Component Diagram

Logical architecture of the recommendation platform

The Job Market Data Feed integrates via the Recommendation API as an external data source (out of current scope).

7. UML Deployment Diagram

Runtime deployment view
